KEWTECH

KEWSTICK DUO

Dual Sensitivity, Non-Contact Voltage Indicator

PRODUCT DATA SHEET

KEWSTICK DUO VOLTAGE INDICATOR

- Unique dual sensitivity for improved detection of live conductors.
- Voltage detection between 50-600V AC
- Non-contact & pocket sized
- Two sensitivity levels:
  1. General voltage indication with wide range
  2. Enables indication between live and dead cables just millimetres apart
- Bright bi-colour LED of correct operation (green) and volts present (red)
- Power on/off for longer battery life
- Auto power off
- Audible indication of correct operation and warning of volts present
- Robust construction

SPECIFICATION

Double insulated ⧈
Standard: BSEN61010CAT IV 600V
Operating Range: 50-600V AC
Operating Temperature: -10 to 50C
Humidity: Max 90%
Batteries: 2 x AAA

PRODUCT INFO

30 x 25 x 167 Boxed (WxDxH mm)
69g Weight
