Brand : Kennedy

300x100mm T-HANDLE HEAVY DUTY CLAMP

Product Information :

Manufactured from heat treated carbon steel for extra strength, this range of heavy duty T-handle clamps are ideal for holding work pieces. Finished with nickel and chrome plating, the product also possesses a textured T-spindle for extra clamping force. Available in varying sizes to allow you to select the size product that best suits your needs.

Features and Benefits
- Finished with a nickel and chrome plating for bolstered resistance to wear and tear and corrosion
- All steel construction makes for a durable and resilient product
- Available to purchase in varying sizes to suit your requirements
- Textured T-spindle offers extra clamping force

Typical Applications
- Ideal for use when holding work pieces in order to glue, carve or generally make changes to a work piece

EAN Code - 5036140115774
