Brand : Kennedy

MAGNETIC LONG REACH PICK-UP TOOL

Product Information :

With a long reach handle and a high power, permanent magnet, this magnetic pick up tool is designed for easy pick-up and release of metal objects. It can be used for scrap and ferrous debris. Complete with a spring- loaded magnet release for easy disposal of debris.

Features and Benefits
• Permanent magnet never needs to remagnetised
• Spring loaded magnet release for easy discarding of the ferrous materials
• Long reach handle allows you to access awkward and hard to reach areas

Typical Applications
• Ideal for use in environments where debris and scattered pieces are a regular occurrence, but a safe and tidy workspace is required such as workshops, warehouses and building sites

EAN Code - 5036140044340
