DATA SHEET

Product Code: KEN5530220K
Brand : Kennedy

KENNEDY INDUSTRIAL MAGNETIC SWEEPER 35cm

Product Information :

Possessing a high power magnet, this lightweight extendable sweeper makes for easy pick-up and release of metal objects. It can be used for scrap and ferrous debris in workshops and warehouses. The permanent magnet never needs to be re-magnetised. Finished with a chrome plating to give the item resistance to corrosion.

Features and Benefits
- Chrome plated for bolstered resistance to corrosion and general wear and tear
- Permanent magnet meaning it never needs to be re-magnetised
- Possesses a magnet release to allow you to easily deposit the attracted material
- Lightweight design makes easy work of a laborious task
- Cost effective way of keeping your work place clean and safe from ferrous material
- Telescopic handle allows you to access hard to reach areas and also makes storing the tool easier

Typical Applications
- Ideal for use when tidying up warehouses or work spaces by attracting ferrous materials such as screws

EAN Code - 5036140044357

PRODUCT ATTRIBUTES

MFR Part No.	- MPS390
Overall Length	- 1040mm
Pull Force	- 9kg
Type	- Recovery Magnet
