Push Button Slip Joint Pliers 10 Inch

Professional slip joint pliers designed for gripping, turning and holding pipes, nuts and other workpieces across automotive, plumbing and industrial applications. The push button adjustment mechanism allows quick one handed positioning, while hardened gripping teeth provide secure hold and reliable performance.

Features and Benefits

- Push button adjustment allows fast one handed setting changes
- Wide adjustment range suits various workpiece sizes
- Hardened teeth provide secure, stable grip
- Chrome vanadium steel construction improves durability
- Hot forged body increases strength under load
- Comfortable handle design improves control and reduces pinching

Jaw Material	Chrome Vanadium Steel
Maximum Jaw Capacity	50mm
Overall Length	10in
