DATA SHEET

Product Code: KEN5585100K
Brand : Kennedy

160mm Cable Cutters, Insulated Handle

Product Information :

Available in two sizes, these insulated diagonal cutting nippers are especially suitable for production line environments where repetitive work is undertaken. With a double polished head and joint, induction hardened cutting edges and VDE insulated handles.

Features and Benefits
• Insulated VDE handles up to 1000V (DC) making them ideal for use by electricians
• Available to purchase in varying sizes to suit your requirements
• Black oxide finish provides additional protection against corrosion and wear and tear
• Induction hardened cutting edges bolster product longevity

Typical Applications
• Construction
• Electrical
• DIY

Standards
• DIN EN IEC 60900

EAN Code - 5036140118218

PRODUCT ATTRIBUTES

Finish/Coating	- Black Oxide
Handle Type	- Insulated
Jaw Material	- Steel
Maximum Circuit Protection	- 1000V dc
Overall Length	- 160mm
Standards Met	- DIN EN IEC 60900
Type	- Cable Cutters
