KENNEDY®

Order Code:
KEN-567-5535K

Seismic Pressure Gauge 100mm 100MPa

Pressure gauge to suit KEN-503-9490K & KEN-503-9470K

Features and Benefits

- Seismic pressure gauge designed for reliable pressure measurement
- Accuracy Level 1.6 ensures precise readings
- 100mm face diameter for clear visibility
- Top-mounted gauge connection for easy installation
- Measures up to 100MPa for demanding applications
- Strong steel case provides durability and protection
- M20×1.5 port size for secure fitting

Accuracy	Level 1.6
Brand	Kennedy
Case Material	Steel
Face Diameter	100mm
Gauge Connection Location	Top of the gauge
Max Pressure Measurement	100MPA
Port Size	M20*1.5
Pressure Gauge Type	Seismic Pressure Gauge
Pressure Unit	MPa
