Product Code: KEN5721020K
Brand : Kennedy

No.2 CROSS PT ENGINEERS SCREWDRIVER

Product Information :

With a traditional 'fluted' design handle, these Crosspoint screwdrivers are designed to help virtually eliminate slippage when applying torque to Crosspoint screws. Composed of a high-quality steel blade with satin finish, a magnetic tip hardened and ground to prolong tool life and high impact plastic handles, this range of screwdrivers is ideal for professional applications. Available to buy in a variety of sizes, with the No.2 driver being suitable for most applications.

Features and Benefits
• Traditional fluted design handle improves grip and user comfort
• Available in a variety of sizes to suit your requirements
• High quality steel blades with satin finish are robust and suited for regular use
• Magnetic tips allow the user to apply maximum torque whilst holding fasteners in place to avoid cam-out
• High impact plastic handles are durable and resistant to acid, oil and general wear and tear

Typical Applications
• Engineering
• Construction
• Automotive
• Electrical
• DIY

Standards
• DIN ISO 8764

EAN Code - 5036140120242
