Tri-Clamp 2” Universal adapter fitting for VEGABAR and VEGAPOINT Switches with 1” Threaded connection

Description

Threaded process connection with elastomer seal (supplied with sensor) and Ra<0.76µm hygienic polished finish. This Universal connection simply screws on the front of the VEGAPOINT level switch or VEGABAR pressure sensor/switch to adapt to a Fitting

Application area

Hygienic adapter suitable for VEGABAR series 10, 20, 30, 80, VEGAPOINT series 10, 20, 30 and with process fitting G1" with O-ring/316L - Flexible and simple integration into the system

Benefit

Fast replacement during system downtime - Reduced stock keeping due to standard sensors

Technical specifications

Wetted parts:	316L
Finish	Ra<0.76µm
Adapter	Tri-Clamp connection 2" - DIN32676, ISO2852
