Electricians Screwdriver, 2.5mm Parallel Tip, 85mm Blade

Product Information :

Volt-tested to ensure safety on or near electrical equipment up to 1000V AC or 1500V DC, this range of VDE insulated screwdrivers is suited for electrical use. The blades are insulated with magnetic, parallel tips. Slotted head screws are the most commonly used screw. The tip of the screwdriver should be of the same width as the slot in the screw head and fill it as well, to minimise slipping. The product is finished with a high grip handle and is available in a range of sizes.
