KENNEDY
QUALITY INDUSTRIAL TOOLING

DATA SHEET

Metric Double Open Ended Spanner, Chrome Vanadium Steel, 10x11mm

This range of metric sized double-ended spanners is highly versatile. With a satin finish body and highly polished heads, the product is completed by a 15° offset angled head. Available in multiple sizes to allow you to select the product best suited to your application.

Features and Benefits

- Length: 155mm
- Manufactured from chrome vanadium steel for resilience and quality performance over time
- Satin finish to bolster resistance to wear and tear as well as corrosion
- Highly polished heads make easy work of even the tightest bolts
- Double-ended design gives double the tool life and use
- 15° offset angled head allows for access in restricted areas and makes turning easier

Typical Applications

- Plumbing
- DIY
- Automotive
- Engineering

Standards

- Conform to **DIN 3310**
