Data Sheet

3.3 ft. (1 m) USB Multi-Charging Cable - Lightning, USB-C, Micro-USB

Product ID: LTCUB1MGR

This USB multi-charging cable a single-cable solution that makes it easy to charge and sync your Apple Lightning or Android devices.

3-in-1 USB Charging Cable

Keep this USB to Micro-USB, USB-C or Lightning cable on hand for all your charging needs, instead of carrying multiple cables. The 3-in-1 cable makes it easy for you to switch between different device models and platforms. Note that it will only connect to one device at a time.

Charge your devices from a USB wall charger, car charger, or power bank. The longer cable offers a greater range, so you can access your device conveniently even while it’s connected to a charger.

Avoid Kinks and Tangles

With a braided nylon jacket, this durable charging cable doesn’t kink or tangle as easily as non-braided cables do. It’s an excellent replacement for any of your charging cables.

Easy to Use

To charge or sync a USB-C or Lightning mobile device, simply attach the corresponding connector to the Micro-USB connector and plug into your device. To charge or sync a Micro-USB device, plug just the middle connector of the cable into your mobile device.

The cable will only charge or sync one device at a time.

LTCUB1MGR is Apple MFi certified and backed by StarTech.com 2-year warranty to ensure dependable performance.
