SanDisk Ultra® Dual Drive m3.0

Flash drive for Android™ phones

- Free up memory on your Android™ devices[1]
- Back up photos, videos and contacts
- Easily move content to your laptop
- Contains one micro-USB and one USB 3.0 connectors
- SanDisk® Memory Zone file management app for easy backup[2]

FULL PRODUCT DESCRIPTION

The SanDisk Ultra® Dual Drive m3.0 makes it easy to transfer content from your phone to your computer. With a micro-USB connector on one end and a USB 3.0 connector on the other, the drive lets you move content easily between all your devices—from your Android™ smartphone or tablet to your laptop, PC or Mac computer[1]. The USB 3.0 connector is high-performance and backward-compatible with USB 2.0 ports. This flash drive for your Android devices includes the SanDisk® Memory Zone app[2] for automatic camera roll backup and easy file and media management.

SanDisk products are constructed to the highest standards and rigorously tested. You can be confident in the outstanding quality, performance and reliability of every SanDisk product.

FEATURES AND BENEFITS

- Easily free up space on your OTG-enabled Android™ smartphone[1]
- Transfer files between OTG-enabled Android smartphones and tablets and PC and Mac computers[1]
- 16GB, 32GB, 64GB, 128GB or 256GB** additional storage for Android smartphones and tablets

- High-speed USB 3.0 performance transfers files from the drive to your computer at up to 150MB/s* [for 32GB-256GB only]
- High speed USB 3.0 performance transfers files from the drive to your computer at up to 130MB/s*[for 16GB only]
- Use SanDisk® Memory Zone application (available on Google Play™)[2] to easily manage and backup files on your Android device
- Compatible with most Android devices[1]

CHOOSING THE RIGHT USB

Choose the amount of storage you need

The amount of capacity you need depends on the type of files you have, how big they are, and how many there are. The chart gives you an idea of how many photos, videos, music and office files you can store for each capacity.
