KEN GRIP

DATA SHEET

1/4" Ken-Grip® Hexagon Socket, 9mm - Metric

The Ken-Grip® socket has a unique patented design that grips even worn and rusted fasteners without damaging them and can be used on a wide range of fasteners, including non-metric hexagons and E-Torx® Drive sizes. The 'Double-Knurl' feature gives a high grip which is essential for quick tool change when hands are greasy or oily. Manufactured from chrome vanadium steel, the sockets and accessories are aluminium-free and fully chrome plated for an easy clean finish.

Features and Benefits

- Ken-Grip® designed tool grips fasteners which are up to 95% rounded off
- Will not damage worn or rusted fasteners
- Fits a wide range of non-metric Hexagons and E-Torx® Drive
- Fully chrome plated for easy clean with aluminium-free finish
- Unique 'Double-Knurl' for high grip
