Skipper™
Beyond modular connectivity

DATA SHEET

Skipper S4 Life

Product code: S4life

Overview

Designed specifically for the retail and hospitality market, the S4 Life barrier has all the modularity and versatility of the Skipper range but with look and performance of fixed, fabricated metal systems. These can be extremely expensive and cannot be moved around, also they will not have integrated lighting, all worked from an intuitive free app.

All made from metallic recycled polypropylene, the S4 Life barrier is by far the most beautifully complete system available.

Product Specifications

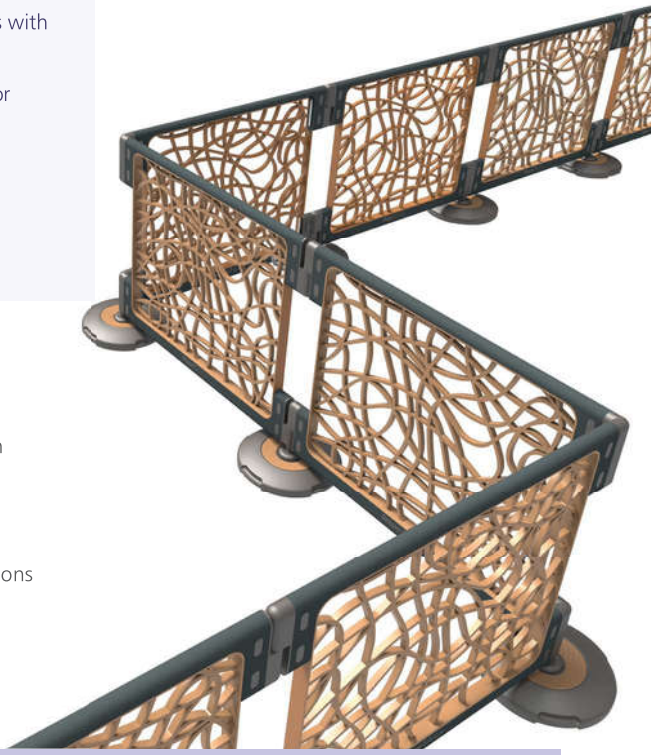
Width:	1000mm 39.37"	**Height:**	850mm 33.46"
Depth:	40mm 1.57"	**Weight:**	3.5kg 123oz

Key selling points

- Modular design
- Easy to assemble
- Compatable with the full Skipper Public Guidance range
- An attractive alternative to using fabricated metal

Key features

- Options for S4 Life lights with app integration
- Multiple colour options for customization
- Made from recycled polypropylene materials



Product FAQs

Q. What Colours are available?

A. Initially Bronze, Silver and Purple. Other colours can be made available on request.

Q. Is the S4 Life compatable wth the Skipper Q system?

A. Yes. The S4 Life can connect to the Skipper Q System to expand your options and provide additional solutions for your hospitality needs.
