KENNEDY PROFESSIONAL

DATA SHEET

1/2" Wobble Extension Bar, 250mm

In areas where clearance may be a problem, the 'wobble' square drive can be used at an angle of up to 15°. Manufactured from high quality chrome vanadium with a fully polished finish and a knurled finger grip, this 1/2" square drive extension bar is ideal for reaching fasteners in confined spaces. Available in three different sizes.

Features and Benefits

- Manufactured from chrome vanadium steel for maximum durability
- Fully polished finish repels dirt and makes for easy cleaning
- Knurled finger grip improves user handling and reduces the risk of slippage when using the tool
- Can be used up to a 15° angle making it ideal for use in awkward or restricted areas

Technical Specifications

- Material: Chrome vanadium steel
- Fully polished finished
- Drive size: 1/2"
- Drive type: Square
- Length: 250mm (10")

Typical Applications

- Automotive
- Construction
- Engineering
