KENNEDY PROFESSIONAL

DATA SHEET

1/4" Hex Bit Adaptor, 35mm

Constructed from chrome vanadium steel, this hex bit adaptor is designed for converting square drive tooling to use hexagon bits. Available in two sizes, the part number and size are engraved into the adaptor for instantaneous recognition of the correct size tool.

Features and Benefits

- Cost-effective way of converting square drive tooling to hexagonal bits
- Engraved sizing directly onto the product allows for easy selection of the correct component
- Available in two sizes to allow you to select the size suited for your needs
- Manufactured from chrome vanadium steel for overall product durability

Technical Specifications

- Material: Chrome vanadium steel
- Drive size: 1/2" to 1/4"
- Drive type: Square
- Length: 35mm (1-19/50")

Typical Applications

- Engineering
- Maintenance and Repair
- Construction
