KEN GRIP

DATA SHEET

# Metric 1/4" Square Drive Ken-Grip® Socket Set - 30 Pieces

Featuring Ken-Grip® patented design sockets that grip up to 95% of a rounded fastener and will not damage worn or rusted fasteners, this product is ideal for general purpose applications. Manufactured from chrome vanadium steel, the sockets will fit a range of non-metric hexagons and E-Torx® drive sizes. The screwdriver bits are manufactured from chrome molybdenum.

## Features and Benefits

- Manufactured from chrome vanadium and chrome molybdenum steel making for a robust set
- 39 piece set ensures you'll always have the correct socket, bit or drive no matter the application
- Supplied in a tough plastic case to help store, protect and organise your components

## Typical Applications

- DIY
- Automotive
- Construction
- Engineering
- Plumbing
