Brand : Kennedy

10" STILLSON WRENCH

Product Information :

These standard-duty, general purpose pipe wrenches are suited for use in a variety of applications including the plumbing industry for gripping pipes and nuts. With a cast iron frame, drop forged handles and serrated jaws, the product guarantees a secure grip. All moving parts are heat-treated and the product is available to purchase in a range of sizes.

Features and Benefits
- Cast iron frame is robust
- Drop forged handle and jaws make for increased product longevity
- All moving parts are heat-treated for bolstered durability
- Jaws serrated in the opposite direction for improved grip
- Available in a variety of sizes to suit the users needs

Typical Applications
- Plumbing
- Automotive
- Engineering
- DIY

Standards
- Conform with BS 3594 : Part 1

EAN Code - 5036140142367
