QUICK ADJUSTABLE PIPE CUTTER WITH SPRING PRELOAD MECHANISM

The Quick Adjustable Pipe Cutter with Spring Preload Mechanism offers precise and efficient pipe cutting for a variety of materials. Its spring preload mechanism and quick-moving design ensure fast operation while maintaining consistent cutting pressure. Built from durable zinc alloy with a hardened SUJ2 cutting blade, it delivers long-lasting performance. Compact and lightweight, it provides safe and controlled handling for professional and DIY applications.

Features and Benefits

- Cutting capacity from 3 to 30 mm for versatility
- Spring preload mechanism for consistent cutting pressure
- Quick-moving design for fast and efficient operation
- Durable zinc alloy body and turning knob for strength
- Hardened SUJ2 blade with HRC56 to 58 for precision
- Compact and lightweight for easy handling
- Provides safe and controlled pipe cutting
