Product Code: KEN5911080K
Brand : Kennedy

8" STRAIGHT BLADE TINSNIP

Product Information :

Manufactured from drop forged carbon steel with hardened and precision ground blades which can be re-sharpened, this range of standard type tin snips can cut copper, aluminium or mild steel. Constructed with a traditional, straight cutting design, the product is suitable for the general-purpose cutting of sheet metal in a wide range of materials. Complete with polypropylene handles.

Features and Benefits
- Can cut copper, aluminium and mild steel making for a versatile product
- Hardened carbon steel blades are highly durable and hold a good cutting edge even over time
- Polypropylene handles provide user comfort and control when using
- Available in a variety of sizes to suit your requirements

Typical Applications
- Engineering
- Construction
- DIY

EAN Code - 5036140017474

PRODUCT ATTRIBUTES
