## 24"x16" RAFTERS SQUARE

Product Information :

Constructed from hardened and tempered ground steel, this Rafter's square is a staple of any carpenter's tool kit. Graduated to 2mm on one side and 1/8" and 1/16" increments on the other for versatility of measuring, in the hands of a skilled carpenter, the simple rafter's square becomes an indispensable calculating device of immense capacity. Enabling the carpenter to easily determine the length of any common, hip, valley or jack rafter for any pitch of roof as well being able to make the proper cuts, top and bottom as well as slide or cheek cuts for any rafter.

Features and Benefits
• Manufactured from hardened and tempered ground steel for optimum durability
• Graduated to 2mm on one side and 1/8" and 1/16" increments on the other for both metric and imperial measurements depending on your preference
• Versatile in its use, as it can be used to determine the length of any common, hip, valley or jack rafter for any pitch of roof as well as making proper cuts

Typical Applications
• Carpentry
• Joinery
• Construction

EAN Code - 5036140144552
