

Ceramic vertical fan heater, very quiet, easy to place, requires very little space.

Characteristics:
Ceramic resistances that optimise energy consumption.
Remote control for power selection with two heating intensities and one ventilation position.
Double security system, with anti-overturning security switch and overheating thermal protection.
Easy remomable and washable air filter.
Anti-freeze device: connects the fan heater when the environmental temperature is lower than 5ºC.
Class II.

Power selection control. Pilot light.

Automatic adjustable thermostat
with anti-freeze device

Carrying hundle. Washable air filter

Anti-overturning switch.
