AFV03R5

Ventilated gland plate

This gland plate is a perfect solution when only natural ventilation is required and insects, dust, and other particles need to be kept out.

CHARACTERISTICS	
For opening	410 x 96
Gland plate type	3
Depth	128
Width	442

Item no.: AFV03R5
EAN no.: 8713574124240

Technical data

Description: Louvered plate, pressed out 5 mm with filter.

Material: 1.4 mm mild steel.

Finish: RAL 7035 structured powder coating.

Protection: Complies with IP 53, in bottom or vertical position.

Pack quantity: 1 piece.

Features

Feature: Steel gland plate with integrated louvres and filter.

Advantage: The gland plate allows for natural ventilation and keeps insects and dust outside without any machining of the enclosure.

Benefit: Cost effective thermal management based on natural ventilation.

Comment: This product is also available with a fly net (AFG) or without any protection (AFR).
