Product Data Specification Sheet

Oleonix Full Spectrum Cleaner

Designed for the toughest applications, Oleonix combines the latest sustainable chemical technology with the advanced Micriolysis process to lift out dirt like no other cleaner. Proven to remove even the most difficult industrial dirt including grease, oil and fats from the full spectrum of surfaces.

Oleonix Full Spectrum Cleaner is suitable for all industry sectors and is ideal for the Food Sector.

Effective on stainless steel, plastic, wood, ceramic, glass, rubber, concrete, metal, vinyl floors and safety floors, uPVC cladding, canvas, in fact virtually everything – simply change the dilution rate for optimum efficiency and cost effectiveness.

Typical dilution rates:

Heavy soiling, deep cleaning, compacted dirt, disinfecting

General maintenance cleaning, daily cleaning

Light cleaning, hard floor cleaning

Certified FOOD SAFE

Oleonix Full Spectrum Cleaner is certified safe to use and not to taint on food contact surfaces.

Cuts cleaning time and costs in half – uses less product to clean, cleans faster, cleans first time, cleans better.

Concentrated product available in sizes:

OFSC contains amongst other ingredients	%
Non-ionic C9-C15 surfactant blend	5-10%

Caution when using concentrated product;
H319 Causes serious eye irritation
