Technical Data Sheet

Full Spectrum Cleaner Concentrate 20ltr - ONX-780-3932K

Oleonix® Full Spectrum™ Cleaner is a powerful and versatile cleaning solution designed for a wide range of industrial and commercial cleaning applications. Ideal for use in various environments, it is effective on surfaces such as glass, wood, metal, plastic, rubber, ceramic, concrete, and vinyl floors, making it suitable for industries like the food sector. Combining advanced technology with sustainable chemical innovations, it effortlessly removes tough dirt, grease, and oil, cutting cleaning time and costs in half. This cleaner prevents hard water scale buildup, is highly dilutable for cost efficiency, and is eco-friendly, biodegradable, and safe for food contact surfaces. It typically dilutes with 10 parts water for optimal performance.

Features and Benefits

- Versatile enough for a variety of industrial and commercial cleaning jobs
- Works on numerous surfaces like glass, wood, metal, plastic, and more
- Effectively tackles stubborn grime, grease, and oil
- Utilises cutting-edge technology and eco-conscious chemistry
- Minimises cleaning time and product usage for increased savings
- Inhibits the buildup of limescale from hard water
- Offers high dilution rates, making it economical to use
- Environmentally safe, biodegradable, and certified for food-safe surfaces

Technical Information

Standards:
- Meets EU-Regulations for REACH Annex XVII substances
- Meets Regional waste legislation - safe to dispose into watercourse
- FSC and HB is 3402901090
