FM30 FOLDING MAGNIFIER WITH SCALE

Product Information :

The original 'Linen tester' magnifier, although deriving its name from the textile industry, is also suitable for inspecting paper, photographs and printed documents. Possessing a 30mm diameter glass lens that provides up to 6x magnification, the magnifier also boasts a 38mm (11/2in.) working distance, a 25mm (1in.) square field, both metric and imperial graduations (1mm and 1/8in. divisions) and is fully self-standing to free your hands. The product also folds flat when not in use and is supplied in a plastic wallet.

Features and Benefits
- Has both metric and imperial graduations
- Self-standing to free both your hands
- Provides 6 x magnification of objects
- Powder coated for bolstered durability
- Folds completely flat to save space when not in use
- Supplied in a plastic wallet for safe keeping

Typical Applications
- Can be used for the magnification of paper, printed materials, textiles and photographs

EAN Code - 5036140015753
