DATA SHEET

LED Head Loupe Set

This high-quality head loupe boasts a detachable LED light, fully removable to provide an independent source of light with two magnets for attaching to steel objects.

Features and Benefits

- Can be worn with spectacles and has an adjustable headband for greater comfort
- Integral visor to cut out ambient light
- It comes with four interchangeable lenses supplied with their own storage case
- Lenses stay firmly in position when raised or lowered, leaving both hands free to work

Typical Applications

- Suitable for electrical service and assembly, model making and other applications where both hands are required to carry out finely detailed work

Set contains:

1x Head Loupe with removable LED light (batteries not included).
1x Blanking plate for Visor when LED is removed.
1x Box of four lenses: 1.2x (520-620mm), 1.8x (230-320mm), 2.5x (150-250mm), 3.5x (80-120mm)
