4-Port USB-C Hub - Mini Hub - USB-C to 4x USB-A - USB 2.0

Product ID: ST4200MINIC

This portable USB hub expands your laptop or desktop connectivity by adding four USB 2.0 (Type-A) ports through a single USB Type-C™ or Thunderbolt™ 3 port. And, because it’s USB bus-powered, you don’t need to connect an external power adapter, which makes travel more convenient and workstations less cluttered.

Add USB ports, virtually anywhere you go

With its compact and lightweight construction, this 4-port USB hub is designed for mobility. You can easily tuck it into your laptop bag when you're traveling, which makes it easy to expand your connection options almost anywhere you need to. It’s perfect for connecting common USB devices such as a mouse, keyboard, or flash drive, right when you need them.

The hub takes up minimal desk space and fits perfectly in hot-desk or BYOD environments.

Bus-powered design makes travel more convenient

This versatile USB-C hub is bus-powered, which means it draws its power directly from your computer's USB-C port. This means there are fewer cables to carry with you when you travel because it doesn't need an external power adapter.

Universally supported, for easy installation

This USB 2.0 hub will work with a wide range of computers because it requires no additional software or drivers. It installs automatically when you connect it to your laptop or desktop, so you can be up and running quickly. It also works with a range of operating systems such as Windows®, macOS, Linux® and Chrome OS™, so it's multi-platform compatible.

The ST4200MINIC is backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

RoHS Compliant Available

Applications

- Use the USB-C hub on your port-limited laptop, MacBook Pro, Ultrabook™, or Chromebook Pixel™ to expand your connection options by adding extra USB-A ports
- Carry the hub with you while you're traveling, and connect your USB devices wherever you go
- Perfect for home, office, and hot-desk environments

Features

- Adds additional USB 2.0, USB Type-A ports to your laptop
- Compact, lightweight housing with a small-footprint design for travel or desktop placement
- USB bus-powered and features a built-in cable, so you can carry the hub with you anywhere
- Fast, easy installation with broad OS support and no additional drivers required

	Warranty	2 Years
Hardware	Industry Standards	USB 2.0
	Ports	4
Performance	Maximum Data Transfer Rate	480 Mbps
	Type and Rate	USB 2.0 - 480 Mbit/s
	UASP Support	No
