Floating Wall-Mounted AV Shelf, Adjustable Height Shelf For Under TV, Organize A/V Equipment On Black Tempered Glass Shelf

Product ID: 1B-WALL-MOUNT-SHELF

The floating wall mount AV shelf features a 5mm thick black tempered glass shelf, providing an unobstructed surface ideal for organizing AV components under or above a TV or display.

The shelf's bracket mounts to a single wall stud or a concrete wall, with all necessary hardware for installation on a wooden stud or concrete wall, as well as a quick-installation guide, included.

The shelf is height adjustable along the 6.3-inch (161mm) wall mount bracket, allowing for customization to accommodate various AV equipment sizes and configurations, such as video conferencing equipment or an AV receiver.

Supported by a steel bracket, the shelf can support up to 15.4 lbs (7kg). The aluminum wall bracket is sturdy yet lightweight for easier installation, while the tempered glass shelf is more resistant to scratches and shattering than traditional glass.

Cutouts along each side of the wall-mount bracket and pre-scored knockouts on the top and bottom caps provide additional options for cable positioning.
