OF WORKING SURFACE
+ 25% plateau
TRAY + ROBUST AND PRACTICAL
An aluminium plate with a 2mm rice grain finish covers a 15 mm wooden plank
The tips are made of polypropylene with anti-hock treatment.
Resistant to impacts and hydrocarbons
Dedicated slot for 3 screwdrivers
14 mm built-in edges to prevent falling tools when moving
INNOVATION
The aluminium rails on the worktop form an integrated accessory dock for quick and secure installation.
Wide range of accessories (tray and side) to turn your servant into a workstation
+ MANAGEABLE
Handles integrated into the tray with soft bi-material coating on both sides: one for moving and one for lifting the servant for the passage of obstacles
MORE STABLE
Swivel wheels each with a brake when used in workbench
+ MOBILE
125 mm diameter wheels: 2 fixed – 2 pivoting wheels. Supplied mounted
SHOCK ABSORPTION +++
with bumpers on the 4 angles, elastomer thermoplastic, more flexible and prominent
EASE OF USE +++
Drawers with more ergonomic handles, made of aluminium to resist corrosion
Aluminium tilting drawer fronts with safety hooks
Softer bumpers on all drawers
Soft closure with spring-loaded sliders
Central locking with key lock, delivered with 2 keys including 1 hinged
