Martindale TAG6 Lock Out Tags

The TAG6 safety tags give a highly visible warning with a clear "Do Not Switch On" Instruction.

Description

The Martindale TAG6 Tags give a highly visible warning to others that an engineer has isolated and locked off a circuit or equipment for safety and extreme caution should be observed, they give a clear "**Do Not Switch On**" Instruction. The Tags also incorporate a highly visible and recognisable yellow warning triangle.

The name of the engineer, department and expected completion time and date can be written on the tag.
