LOKFS1

Universal fused spur locking off device

PAD10R Padlock available separately

KEY FEATURES

- Enables local isolation
- Compatible with a wide range of fused spurs
- Simple installation, loosen screws, slip on and fasten
- Industry standard fixing centres
- Space for flex outlets

The LOKFS1 is a universal locking off device for single gang fused spur connection units complying with BS 1363-4. It enables safe isolation procedures to be carried out in residential, commercial and industrial premises in accordance with the Electricity at Work Regulations.

Designed for compatibility with a wide range of fused spurs, the FSLOK1 provides a simple solution to ensure circuits remain safely isolated during maintenance and installation work of fixed wired appliances including cookers, boilers, hand dryers and water heaters.

Fitting the LOKFS1 requires no special tools and the polypropylene case contains no metal parts. The locking off device is compatible with Martindale PAD10 Series and PAD20R padlocks (not included).

SPECIFICATIONS
