ENHANCED UHD VISION 0.7/2.9 NEUTRIK UHD BNC TO BNC CABLES

- Van Damme 75ohm Enhanced UHD Vision 12GHz 0.7/2.9 cable terminated with Neutrik UHD precision BNC connectors
- For SMPTE 292M, 424M, 425M, ST 2081 & ST 2082 HD-SDI and UHD 4K/8K digital video use, also suitable for analogue video
- Silver plated solid conductor cable, optimised for dynamic use
- Supplied with Black strain relief boots
- Hand assembled in the UK
- RoHS Compliant

COMPONENT PARTS

Van Damme Enhanced HD Vision solid conductor coax RG6/U

Impedance	75 Ohms ± 3

Attenuation

750 MHz	26.80 dB/100M
1500 MHz	39.10 dB/100m
3000 MHz	55.60 dB/100m

Neutrik NBNC75BFG7X rearTWIST UHD BNC connector

- Rear twist design for ease of mating, fully compatible with conventional BNC connectors
- Optimized contact pin and insulator design for UHD-data transmissions
- Turned Antraloy plated brass body, gold plated brass centre pin, PP insulator
- Meets the requirements of SMPTE 424M, 425M, ST 2081 & ST 2082
