

Skipper XS unit

Product code: XS01

Overview

The Skipper XS unit has all the great versatility of a standard unit but is for use without cones or posts. Just like the standard Skipper unit, Skipper XS has the full 9m of retractable tape. Instead of receiver points, Skipper XS has new connector points for affixing to its own unique range of accessories. This makes it quick and easy to create cordons in any interior environment.

Product Specifications

Width: 145mm	**Height: 126mm**
Depth: 145mm	**Weight: 700g**

Key selling points

- Cheapest barrier per metre on the market
- Versatile and mobile

- Easily attaches to any internal surface

Key features

- Locking button to prevent unwanted spooling of tape
- Contains 9m of high visibility, retractable tape
- Connector points for affixing to its range of accessories from 3 different angles

The Skipper XS contains the same 9m of retractable, high visibility tape

Product FAQs

Q. Which accessories can I use with the Skipper XS?
A. The Skipper XS unit is compatible with the entire range of Skipper accessories apart from the wall and magnetic support brackets

Q. Can I purchase the Skipper XS in different colours?
A. Yes. The Skipper XS is available for both basic and advanced customisation (see the customisation page of this document for more information)

Q. What is the retractable tape made from?
A. The tape used in the XS units is the same used in the standard Skipper unit, which is a PU coated polyester (UVA rating 6+)
