

CUT 125X109.5X6.3

Step cut piston seal with rigid cap and rubber energizer

CUT seals are metric sized, double-acting piston seals with a rigid, glass fibre reinforced polyamide slide ring and a rectangular nitrile rubber energizer. The slide ring has high resistance to wear and gap extrusion and provides low friction, even at high pressures. It is step cut for easy installation.

- Suitable for heavy duty applications
- Available in metric sizes
- Fit seal housings in accordance with ISO 7425-1 for some sizes
