UFCP4301

Inner cover plate, 415x315

This polyester front cover has cut-outs for modular components which eliminates the need for machining. Electrical connections and cables are protected, which means field operations can be carried out in a safe manner.

CHARACTERISTICS	
Height	415 mm
Width	315 mm
Max. enclosure useful depth	150 mm
N° of modules	24
N° of rows	2

Item no.: UFCP4301
EAN no.: 8713574100749

Technical data

Description: Front cover plate with cut-outs for DIN components. Distance between UFCP and enclosure door: 39 mm; 49 mm for UCP750 and above. Reversible mounting position, to increase the distance between UFCP and enclosure door by 30 mm. The mounting frame with DIN rails UMFxxxx must be ordered separately.

Material: Polyester.

Finish: RAL 7035.

Delivery: Cover plate, supporting brackets, one quarter turn fasteners and mounting accessories.

Features

Feature: Polyester front cover with cut-outs for modular components within compact polyester wall mounted enclosures.

Advantage: The cut-outs remove the requirement for customers to machine. Installed electrical cables will be covered by the front cover improving the enclosure's aesthetics.

Benefit: Machining costs are eliminated. As electrical connections and cables are protected, safe operations can be performed in the field.

Comment: The mounting frame UMF, must be ordered separately before modular components can be installed.
