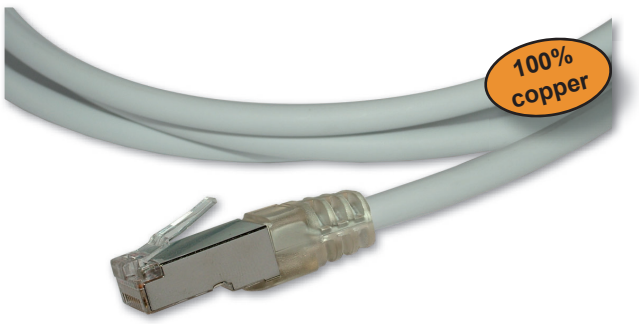
PACH CORD RJ45/RJ45 CAT5E F/UTP 100 OHMS

RoHS



DESCRIPTION

- The cord is composed of round F/UTP Cat5e cable and two overmolded Cat5e shielded RJ45.
- Length and color of the cord on request (default color: light gray).
- The cable is made of four pairs of AWG26 section, 100 ohms, 100 MHz, PVC, C2.
- The RJ45 connector is overmolded in colorless PVC (colour on request), 30µm gold contacts.
- Each cord is tested and checked individually for continuity, wiring and appearance and packaged in an individual bag.
- A Patch Cord performance test is carried out by sampling on cords up to 10m.
