UMPS7532

Plinth, 900x780x310

The DIN-base allows modular polyester wall mounted enclosures to be installed outdoors making it possible to install cables channelled underground more quickly.

CHARACTERISTICS	
Height	900 mm
Width	780 mm
Depth	310 mm

Item no.: UMPS7532
EAN no.: 8713574103252

Technical data

Description: DIN-base pedestals.

Material: Glass fibre reinforced polyester.

Finish: RAL 7035.

Delivery: 1 piece with mounting accessories.

Features

Feature: Polyester DIN-base for modular polyester wall mounted enclosures.

Advantage: A standard off the shelf product that meets the DIN requirements for outdoor installations.

Benefit: Polyester modular wall mounted enclosures can be easily installed in the field thanks to the installation depth of the ground plinth. Cables that are channelled underground can be wired much quicker than if they had to be brought to the surface first.

Comment: To mount the polyester modular enclosure UDP, to the DIN-base it is required to mount the UAF adaptor first.
