Product Overview & Guides

KleenGuard™ Personal Protective Equipment (PPE) enables rather than inhibits – allowing for maximum productivity and safety for you and your employees. KleenGuard™ G40 Foam Nitrile Coated Gloves are designed for jobs where strength, grip and dexterity are a must. These protective gloves feature better oil and industrial grease grip (almost 3x better than previous G40 nitrile gloves), making them a good general purpose choice for a variety of tough tasks. They have the highest abrasion rating – EN388 – and maintain it, even through at least five wash cycles. These silicone-free work gloves offer 25% better productivity than leather and excellent grip and dexterity. They're crafted out of seamless knit nylon (the back of the hand is breathable) for a comfort fit. When you expect a whole new level of performance and quality, you can trust KleenGuard's G40 Blue Nitrile Coated Gloves. Making the right Personal Protection choice is difficult. Perform with distinction with KleenGuard™ Personal Protective Equipment (PPE).

- 60 Pairs of KleenGuard™ G40 Blue Nitrile Coated Gloves per Case (12 pairs / bag, 5 bags / case); Size Small (7.0)
- 25% better productivity than leather, with excellent grip and dexterity for rough tasks
- Maintains the highest EN388 abrasion rating, even after five washes
- Better oil and industrial grease grip (almost 3x better than previous G40 nitrile gloves)
- Seamless knit nylon back for comfort, available in a variety of sizes (ranging from small, medium up to 2 extra large)

About KleenGuard™

KLEENGUARD

We understand how workers move, work, stretch and sweat. We call it human-centric engineering. And it's this industry-changing technology that separates KleenGuard® brand protective clothing, eye protection and hand protection from other PPE.
