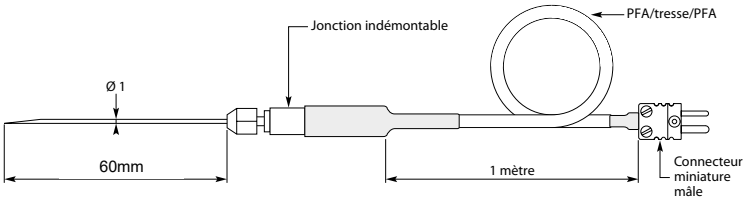
Datasheet

Thermocouple sensor

SAIG60



Part number : SAIG60

Product description : Sensor thermocouple K to prick for vaccum cooking Ø 1mm 60mm cable 1 meter with miniature connector

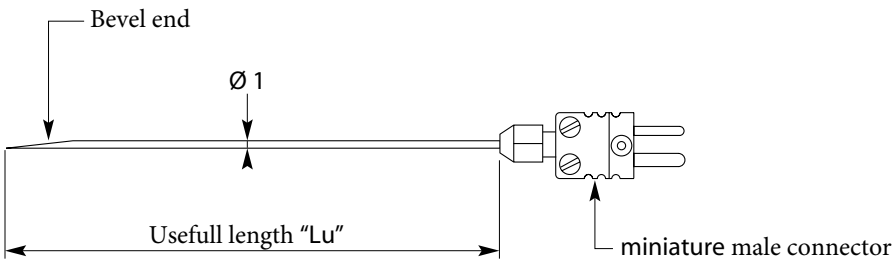
Product detail :
Sensor thermocouple K to prick for vaccum cooking
Needle Ø 1mm 60mm
Output one meter cable with with miniature connector
For portable thermometer type K.
Operating Temperature -50 to +200°C.

SPECIFICATIONS

Attribut	Value
Probe type :	K
Probe length :	60mm
Diameter length :	1mm
Minimum Temperature Sensed :	-50°C
Maximum Temperature Sensed :	+200°C
Connection :	Miniature male connector
Cable length	1m
Probe material :	Inox 316L
Accuracy :	Class A

Thermocouple Sensor

For vaccum cooking

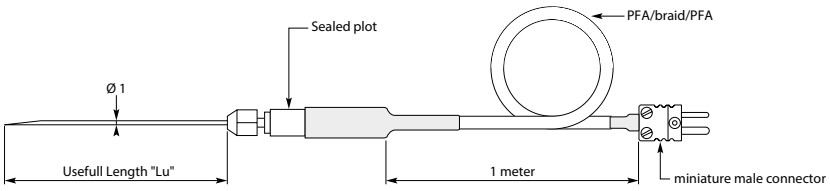


Probe : thermocouple K single class 1
Needle : hypodermic Ø 1mm length 30 / 60 or 120 mm
Ending : miniature male connecteur
Operating Temperature : -50/200°C
Junction : grounded

Ref. HYPOK	"Lg"
30 mm	30
60 mm	60
120 mm	120

Thermocouple Sensor

For vaccum cooking



SProbe : thermocouple K single class 1
Needle : hypodermic Ø 1mm length 30 / 60 or 120 mm
Plot : sealed Ø 6mm length 25mm
Cable : PFA/braid/PFA length 1 meter
Ending : miniature male connector
Operating Temperature : -50/200°C
Junction : grounded

Ref. SAIG	"Lg"
30 mm	30
60 mm	60
120 mm	120
