DrayTek

DRAYPSU

Spare/Replacement DrayTek Power Supplies

Product Overview

Replacement / spare UK external power supplies for various DrayTek products.

It is vital that you order and use the correct power supply to avoid inconvenience or damage your product. Polarity, voltage, AC/DC and DC plug type vary between models. You should only use an original PSU supplied by DrayTek; The usage of any unapproved 3rd party power supply which has not undergone our rigourous safety and operational testing and will invalidate your warranty and may permanently damage your product.
