BLACKROCK

TECHNICAL DATA SHEET

CF10
CARSON COMPOSITE TRAINER

DESCRIPTION
The Carson trainer features a water resistant action nubuck upper to keep feet dry and has both toe cap and midsole protection made from lightweight, metal free composite material. Its hardwearing, dual density PU sole is shock absorbent, anti-slip, anti-static and fuel oil resistant.

SIZES
UK 2-15

STANDARDS
EN20345 S3 SRC

KEY FEATURES
- Water resistant leather upper
- Lightweight metal-free toe cap and midsole
- Dual density shock absorbent, anti-slip, anti-static and fuel oil resistant PU sole
- Energy absorbing heel reduces foot fatigue

FEATURE ICONS

MATERIALS

- Water resistant leather upper
- PU/PU sole
- Non-metallic toe cap
- Non-metallic woven midsole

TYPICAL INDUSTRIES

- Automotive
- Airport & logistics
- Transport
- Warehousing

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
