Technical sheet

TRAVO180ATT

Intervention barrier with PVC frame - 1.80m - Danger Red/white

Barrier perfect for partitioning an area or creating a passage. Lightweight and very stable with its 3 panels, it is easy to install and transport. Made with a PVC structure and polyester panels. Highly customizable, the barrier can be extended with additional sections, bases, and a transport bag. Ideal for adapting to all circumstances with various models and customization options (fabric type, color, printing, finish). The fabric is attached using Velcro and it comes with all the necessary connectors.
