Traffi®

THE HAND PROTECTION **SPECIALISTS**

TG5125

The TG5125 provides level D cut protection, according to EN388:2016, whilst maintaining a high level of dexterity and sensitivity, due to its ultra thin coating. It offers excellent grip in both wet and dry conditions, and is hardwearing and durable.

Key Features

- Soft, close-fitting and comfortable liner
- Durable, water-resistant nitrile foam coating gives excellent grip
- Seamless knitted liner gives 360 degree cut protection and breathability

Ideal for

- Automotive assembly
- Finishing and Inspection
- Logistics and warehousing
- Mechanical and engineering
- Steelwork and fabrication
- Glass handling and installation
- Construction
