**Technical Datasheet**

# 553 Zeronoise BCB - Clear

Code: 553ZB.06.00.00

Release date: 01/02/2024

**WHAT IS BIO-CIRCULAR BALANCED (BCB) PRODUCT?**
It's a groundbreaking approach that combines traditional naphtha feedstock with vegetable feedstock derived from cooking oil waste. By using a mass balance approach, we allocate renewable feedstock to the final product, reducing the reliance on virgin fossil-based materials and lowering Greenhouse Gas emissions.
**By adopting BCB Polycarbonate, we save a remarkable 66% in CO2 equivalent emissions compared to fossil-based alternatives.** You get the same level of impact resistance, protection, and optical clarity while contributing to a greener world.

- Made of sustainable BCB Polycarbonate
- Zeronoise temples, for combined use with earmuffs
- Eco-friendly packaging
