A/V CABLES

10m S-Video Cable

OFC (Oxygen Free Copper) is produced by melting and casting copper under a near vacuum atmosphere to lower the residual oxygen content. This reduces corrosion and enhances conductivity.

The alloy hoods are made from Zinc Alloy with colour coded banding.

S-VHS connection cable with Gold plated plugs for transmission of video signals.

Specification

- 99.9% Pure OFC Copper Cable
- 4 Pin to 4 Pin S-VHS Video Cable
- Heavy Duty Die-cast 24k Gold Plated Connectors
- Silver Cast Injection Hood
- Individually Screened Cable
- RoHS Compliant
