

Post & base collar

Product code: Post04

Overview

The unique post & base collar transforms the Skipper post & base system into a robust, free-standing safety and recycling station. It takes seconds to assemble while still allowing the post to accommodate the Skipper barrier, sign holder and safety lights.

Product Specifications

Width: 191mm	**Height: 185mm**
Depth: 131mm	**Weight: 430g**

Key selling points

- Turns the Skipper post & base system into a free-standing safety stations
- Connect up to 2 recycle bins, 2 safety dispensers and hand sanitiser brackets

Key features

- Slides over the top of the Skipper post & base system and seats into position.
- Still allows the Skipper unit, sign holder and safety light to be attached as usual.

Slide the collar down over the post until it seats into position, then attach recycle bins, safety dispensers and other Skipper products such as the Skipper unit.
