Product Description | **Weights & Dimensions**

Portagate® Compact Barrier Gate System

The Portagate® is a blow moulded high density polyethylene barrier. Light and compact, the Portagate® is designed to meet communications industry requirements and enables increased quantities per vehicle.

Features & Benefits

Configurations
Adjoining clips allow multi-positioning configurations to be formed such as a triangle, a square or a single line.

Firm hold
By sliding the top hinge clip down panels can be locked securely into formations.

Added stability
Designed to accept anti-trip feet for increase stability.

Temporary signage
Recesses are included for toggle mounted courtesy signs to enable the system to be fully closed with the signs still attached.

Reflective panels
Class R1 reflective panels which are 20% more reflective than standard lower grade reflective material conforming to BS 8442.

Stackable

Can be stacked in any 180° orientation to a height of 20 units for 4 gate systems and 25 for 3 gate systems.

Branding available
Barriers can be produced in any colour to match corporate branding and contractor details can be embossed on the barriers. MOQ's apply, contact us for details +44 (0) 1993 826050.
