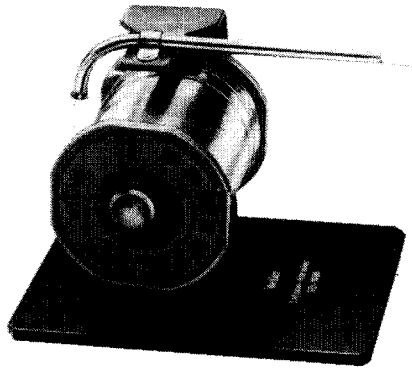
BH-DS	TCP and W60 fitted with desoldering tool	
BH-WEC	WEC series irons	
AK-2	W201 series	

Solder dispenser DS-1000 RS 660-624



Keeps working area tidy and reduces solder wastage. The solder wire is led from the solder dispenser through a guiding tube. The SD-1000 can be positioned for the soldering job in such a way that the hands of the operator are free for the soldering iron and the component to be soldered.
